

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

Excursion Inlet
*Leay Strait*cc. Washington
Seattle
Juneau
Dr. Davidson.DEPARTMENT OF COMMERCE
BUREAU OF FISHERIESName of stream **Red Salmon**Date examined **June 16 to August 10.**Location **Excursion Inlet. Astoria & Puget Sound Canning Company.**Approximate length **2½ miles.** Width **10 to 80 ft.** Depth **6 inches to 3 feet.**Condition and stage (whether clear, high, low, etc.) **Clear and low, generally.**Lakes, if any, size, character, and whether accessible from sea **One lake. Is 2½ miles from the inlet with a uniform depth of 50 feet, is about 1 mile by ¾ mile in width, clear and nothing to prevent the fish coming to it.**
Salmon run (heavy, light, average, etc.)Date and duration of run of each species **On July 5 there were ^{few} fish on spawning grounds, 8 in number, which were still coming a few at a time until I left there, August 9.**

Estimated number of each kind of salmon on spawning beds, or in stream

They are easily counted. I never saw more than 300 there up to August 9, the date I was called in. Red salmon were the only fish running up to that date.

Former size of runs of each species and evidence of depletion, if any

Natural barriers and whether removable **None of any note.**Where markers are placed **500 yards each side mouth of stream.**

Remarks, sketches, etc.

The cannery people built a boat for the lake. I took soundings and find a depth of 50 feet all over the lake, which is nearly round.**Val Haggerty, Stream watchman.**
